

QuickClean

The safe and easy way to remove scale

Hard water causes scale to form in equipment that heat or freeze water. When scale forms on heating elements, it reduces it's efficiency and shortens the life of the equipment. QuickClean quickly and affordably removes scale from steamers, coffee brewing equipment, ware washers and other appliances.

QuickClean is non-toxic and doesn't harm or burn skin or clothing like conventional de-liming acids. Additionally, QuickClean is environmentally safe and can be poured down the drain where it is sewer system disposable.

QuickClean is all natural and FDA approved. It contains Citryne® which is a food grade biodegradable formulation that eliminates scale build-up.

When combined with in-coming water to equipment, de-liming is achieved without costly breakdown and equipment disassembly.

QuickClean

The safe, simple, smart and affordable way to remove scale from foodservice equipment.

70% of all water problems in a commercial kitchen are caused by scale.

Scale = Energy Loss! Scale Elimination = Savings!

Scale problems cost customers money in a number of areas. Expensive equipment is the first to fall prey to scale buildup. This problem forces equipment owners to spend exorbitant amounts of money on service calls and equipment replacement. In addition, increase in scale build up raises energy costs and renders ineffective utilization of water and energy.

Scale Thickness	Energy Loss
1/32"	7%
1/16"	11%
1/8"	18%
1/4"	38%
3/8"	48%
1/2"	60%
5/8"	74%
3/4"	90%

QuickClean contains Citryne® which is an activated citric acid blend. It is FDA approved, biodegradable and environmentally safe.

Easy to Use

QuickClean comes in pre-packaged, convenient 2.0 oz., 7.0 oz., and 2.2 lb. heat sealed packets. Mixed with water, the **QuickClean** formulation is drawn into the appliance for the recommended time. When de-liming is done, simply flush the appliance with fresh water.
