

# BEVERAGE CLEAR PRO

**Water treatment designed for post mix and beverage equipment.**

The Beverage Clear Pro incorporates carbon based multi-stage filtration to ensure the beverage is free from particulates and bad taste. The Beverage Clear Pro provides high quality and consistently pure water for commercial beverage equipment.

## Benefits

- Granular carbon based filtration
- Over 27 ft. of filtration
- Sediment, chlorine and particulate reduction
- Reduce post mix service costs
- 30 second cartridge change out
- 5 micron filtration

## Specifications

Model number	BCP
Replacement unit	BCECR
Max. operating pressure	80 psi
Max. operating temp.	100°
Flow rate	up to 440 gph
Pressure life gauge	Included
Mounting bracket	Aluminum
Shipping weight	9 lbs.
Dimensions	29.5" H X 5.5" W

Fittings are 1/2" hard plumbing at the manifold & 1/2" Easy Connect at the Filter
